With the ongoing Updated storyline of Diogo Camilleri i am working on. Currently at "The Present" (current) ongoing part of the story. Diogo just got to his hotel room, Diogo got his Mobile phone out eager to begin chatty with the beautiful lady that just connected with him on the dating platform, but at the same time, confused and nervous because of the thought of her not been who she is clouded his minds... He thought to himself, "How do i know who she really is, what are the questions i need to ask", he thought because he was new to it, also he doesn't want to scare, or sound awkward asking these questions if not presented well. Then an idea came to him, to use several tactics like indirect flattery, subtle coaxing, charm-fishing, corny cues, quirky probing. To get what he needed to know from her, so he doesn't lose her if he sounded awkward asking.
