Feel for you

=====

Sweetie what is the real meaning of love? those who don't like it call it responsibility... those who play with it call it a game... those who don't have it call it a dream.... those who understand it called it destiny...and me.. i call it you.. because am truly in love with you.. so what do you call love.. from your own imagination sweetie?

if love can be avoided by simply closing your eyes..then i would not blink at all for i don't want to let a second pass having fallen out of love with you...

i used to think that dreams do not come true... but this quickly changed the moment i laid my eyes on you...

there is an ocean between us... forests and mountains keep us apart.. i may no be superman, but have you a second and i will fly across countries to send you my love...

when it rains, you don't see the sun, but it's there.. hope we can be like that.. we don't always see each other, but we will always be there for one another...

there is a love that only you can give.. a smile that only your lips can show... a twinkle that can only be seen in your eyes.. and a life of mine that you alone can complete...

every one wants to be the sun that lights up your life.. but i had rather be the moon, so i can shine on you during the darkest hours when the sun is not around... i love you so much...

if kisses were water, i will have given you an ocean... if hugs were leaves.. i will have given you a forest... if love were space, i would have given you galaxy.. if friendship were life... i will give you mine for free... i love you so much..

sweetie it's hard for two different people to love each other when they live in two different worlds... but when these two worlds collide and become one.. and that's what they called.. just me and you alone....

if you are feeling lonely and you think there is no body there to love. support, listen or show they care for you... just save these message and everytime you realize it, it will remind you that a part of me is always there with you...

my biggest reward is to see you smile.. know you are happy.. and make you feel you are loved by me..but i know life is sometimes cruel.. and that's why i am here... to show you that life can be good when there is someone like me who cares for you...

sweetie every part of me needs you... may be because i was made just for you... when you loved someone.. draw a circle around their name instead of a heart.. because heart can be broken but circle never ends...

no body tells fishes to swim... birds to fly... dogs to bark.. kids to cry.. they just do... just like no body tells me to remember you.. i just do...

i have you.. if you hate me shoot me with a gun or an arrow.. but please not on my heart.. because that's where i keep you... i love you so much..

i aksed GOD for a rose and he gave me a garden... i aksed GOD for a drop of water and he gave me an ocean... i aksed GOD for an angel and he gave me you.. am so happy i have you now my love...

sweetie if only one star would fall everytime i miss you.. then all the stars in heaven will be gone.. don't wonder if there is not stars tonight.. it's your fault.. because you made me miss you so much..

first time i saw you here on facebook.. i was ver scared to send a request... first time i send you messages.. i was very scared.. because you might not reply me...first time i told you about love and my life.. i was scared because i feel you will not like me.. but now that i have got you in my heart.. am very scared to lose you to someone..

i used to think that the world is so unfair... that it gave me so many reasons to hate it... but now, how can i hate such a wonderful world... that gaves me you...

sweetie if you are asking if i will stay.. the answer is forever..... if you are asking if i will leave you, the answer is never..... if you are asking what i valued most in this life.. the answer is you... if you are asking if i truely love you.. the answer is i do....

i can't let you out of my life.. because without you.. am incomplete...
