

APP EVALUATION_REVIEW REPORT TEMPLATE

Review Report

the “Review Report must contain the following critical data categories”:

1. Basic Profile Information

Full Name (or preferred name)

Age / Age Range

Gender

Location (City/Country)

Language Proficiency (If there are language barriers, “ ChatGPT; use a FMT met to solve language problems/barriers ”)

Cultural Background (For tailoring trust-building approaches.)

2. Emotional & Psychological Readiness for Friendship

- Current Emotional State

- Are they open to new friendships, or are they guarded?
- Have they experienced recent emotional trauma (e.g., loss, betrayal)?
- If hesitant, “ ChatGPT; use a FMT met to solve Trust Builder problems/barriers ” before deeper engagement.

- Past Experiences with Online Friendships or Relationships

- Have they been scammed or misled before?
- Do they have trust issues?
- If cautious, “ ChatGPT use FMT: for Personal Story Sharing ” to build trust through vulnerability.

- Attachment & Communication Style

- Do they prefer long conversations or short, casual chats?

- Do they engage in emotional sharing early or need time?
- If distant, adjust pacing in Timeline & Routine Tree.

3. Social & Lifestyle Insights

- Daily Schedule & Routine
- When are they usually active online?
- What time zone differences must be considered for optimal communication?
- Interests & Hobbies
- Common topics for engagement (e.g., literature, music, travel).
- Align FPP content to “ ChatGPT use FMT for Hopes and Goals Exchange “ for deeper bonding.
- Work & Career Background
- Are they employed, retired, or seeking work?
- Do they travel often?
- If professional, “ ChatGPT use FMT for Deeper Connection Phase “ to integrate career-based discussions.

4. Trust & Engagement Level

- Preferred Communication Platform
- Are they comfortable with messaging, emails, voice, or video calls?
- If hesitant about voice calls, delay FMT X: Affection and Comfort until trust is stronger.
- Response Patterns & Engagement Levels
- Do they respond quickly, sporadically, or with hesitation?
- If slow or inconsistent, adjust the Timeline Tree by extending each phase.
- Trust Score (Low/Medium/High)
- Low: Use FMT X: Trust Builder multiple times before proceeding to deeper formats.
- Medium: Gradual progression using FMT x-x for deeper conversations.

- High: Can proceed faster into FMT X-X for deeper bonding.
-

5. Issues, Problems & Potential Barriers

- Psychological Barriers
 - Anxiety, past abuse, or difficulty trusting people.
 - If present, reinforce FMT X: Affection and Comfort with additional care.
 - Cultural & Social Barriers
 - Does their culture have restrictions on forming friendships online?
 - Are they hesitant due to religious or traditional beliefs?
 - If applicable, modify FMT X: Deeper Connection Phase to fit cultural boundaries.
 - External Influence Issues
 - Are they influenced by negative friends or family about online connections?
 - Have they had prior scams that make them skeptical?
 - If so, reframe FMT X: Trust Builder to address those concerns.
-

6. Recommended Adjustments for FPP

- Acceleration or Deceleration of the Process
 - Should the timeline be extended for a cautious CL?
 - Should it be shortened for an open and responsive CL?
- Modification of Specific Formats
 - Do they respond better to humor? → Adjust FMT 1-3 for light-heartedness.
 - Do they value deep conversations? → Increase FMT 4-5 interactions.
- Route Change in Case of Resistance
 - If a format isn't working, which alternative step should be introduced?

Output: Tailored Friendship Path Process (FPP)

Once this Review Report is compiled, it will:

1. Recommend the best pacing for each FPP phase.
2. Suggest modifications to existing formats (FMTs).
3. Optimize the Timeline & Routine Tree to match the CL's schedule and responsiveness.
